

A photograph of a marble statue of David, leaning against a wall. The statue is shown from the waist up, with its arms crossed and head resting on its hands. The background features a curved architectural element and a wall with rectangular panels. The text "I asked AI to / imagine" is overlaid in white, bold, sans-serif font across the center of the image.

In this delightfully offbeat art book, “I Asked AI to Imagine,” we’re diving into the world of AI imagery. So prepare for a wild ride of artistic oddities, as we challenge creative minds to collaborate with AI and unleash their dreams onto the digital canvas!

Here, we embrace the wonderfully absurd, the bizarrely beautiful, and the hilariously unexpected. Art directors, copywriters and makers of all kinds are summoned to let their imaginations run wild, as we dare AI to join in the midjourney of artistic expression.

In this adventure, AI becomes our playmate, twisting our ideas into something entirely whimsical.

Or perhaps, what Da Vinci’s Mona Lisa would be if she traded her smile for an AI smirk? In “I Asked AI to Imagine,” there are no limits to the fantastical and no boundaries to the absurd. We’re questioning who the real mastermind is behind these creations—the artist or the AI?

We pause to reflect on the impact of AI imagery on the creative landscape. As we journey through this digital wonderland, we find ourselves wondering how AI is reshaping art and pushing the boundaries of our creative potential. Can we, as artists, learn from the computations of AI and use them to inspire our own imagination?

So, let us dive into the depths of “I Asked AI to Imagine” and see what artistic wonders unfold. Let your creativity and curiosity collide with the power of AI, as we celebrate the joy of creation in all its absurd glory.

Welcome to “I Asked AI to Imagine.” The midjourney of artistic hilarity awaits!
